EXPERIENCE

COGNITENSOR TECHNOLOGY PVT LTD | WEB DEVELOPER
September 2020 - Present | Noida, Uttar Pradesh
• Learned to connect to database and run general queries in DB connector
• Applying components and filters to the dataset by running the queries to obtain desired results from the product **COGNIVIZ**
• Creating the **COGNIVIZ** website using **HTML, CSS** & other technologies

RASHTRIYA CHEMICALS & FERTILIZER | MANAGEMENT
December 2019 - January 2020 | Chembur, Mumbai
• Learned about the maintainance of the company database and the employees attendance system and ID generation
• **Online Portal:** Where the employees add their queries regarding their issues and how engineer help them to solve their issues
• Created dummy websites using **HTML, CSS & JavaScript**
• This experience allowed me to learn more about leadership, effective communication, & focusing on the most important next steps

SAHU TECHNOLOGIES | WEB DEVELOPER
May 2019 - June 2019 | Ghatkopar, Mumbai
• Individually worked on one of their replication of the websites which allowed me to brush up the basics fundamentals of web development

PROJECTS

INVOICE DATA CAPTURE USING OCR | ACADEMIC PROJECT
August 2020 - Present
• Extracting the key information from the invoice and storing the data which will reduce the manual work and increase the efficiency of the maintainance of data by 80%. Technology used in this project is Python3

PORTFOLIO WEBSITE | PERSONAL WEBSITE
September 2020
• *https://rushhabhh.github.io/cv/*
• Created the personal website with the experience gained from the internships and online course which allowed me to create the personal website which was created using **HTML, CSS & JavaScript**(Basic)
